PRICE LIST FORMAT

- A. Sheet Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the WUTC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the WUTC follows in its tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a price list filing is made with the Commission, an updated Check Sheet accompanies the price list filing. The Check Sheet lists the sheets contained in the price list, with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some sheets.)

2.18 Service Cancellation, Discontinuance and Termination

Subject to and to be construed consistent with Sections 2.2.3 and 2.13, preceding, and under applicable circumstances as set forth following, Company's services may be canceled, temporarily or permanently discontinued or terminated without liability of any kind to customer or any third party. Company's right to cancel, discontinue and/or terminate a service or services applies equally to and/or may in Company's discretion be limited to new orders for or modifications to existing service, new service orders, modifications of services yet to be commenced or other service circumstances.

2.18.1 Definitions

A service or services are considered "canceled" when the Company determines not to provision service prior to commencement of that service.

A service or services are considered to be "temporarily discontinued" when Company determines to suspend service or services for a period of time during which the causes underlying the suspension of service are investigated to determine whether a service or services may be reinstated consistent with this tariff and/or applicable law and/or regulation. Temporary discontinuances may not exceed thirty days, unless good cause is shown. At the end of the applicable period of temporary discontinuance, e.g., 30 days, service must be reinstated according to the original terms and conditions applicable to said service or services as set forth in this tariff.

2.18.5 Termination

A specific service or any combination of multiple services may be terminated if Company determines to cease provisioning the service or services for a customer or class of customers for cause. For purposes of this section, "cause" is defined as follows:

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.18 Service Cancellation, Discontinuance and Termination (Cont'd)

2.18.6 Service Term Commitments

- A. Termination Charges** - Discontinuance Before Expiration. Should customer discontinue service before the expiration of any term commitment specified in this tariff, customer shall be liable for termination charges as specified in the term commitment.
- B. 90-Day Term Agreement** – In consideration for the value of various promotional offerings granted to certain new customers, such customers may elect to be subject to a 90-Day Term Agreement. Should a customer under this term agreement terminate service with Company prior to completion of the term, that customer is subject to an early termination charge equal to the amount of estimated billing for such customer, applied on a pro-rata basis for the remainder of the term. The monthly estimated billing for a customer is determined by customer's previous carrier's invoice. The initiation date of the term is deemed the date of customer's first call. The date of termination of service is deemed as the date Company's Winback Department notes customer's account as in "jeopardy." The pro-rata early termination charge amount is determined by multiplying customer's monthly estimated billing by three (3) (to determine the total term estimated billing), determining the percentage of the remaining days of the term after termination, as compared to the entire term, and applying the remaining term percentage to the total term estimated billing. Percentages are rounded up to the next whole number, and termination charges are rounded up to the next whole dollar. The early termination charge will be applied to customer's next invoice after the date of termination. Customer's 90-Day Term Agreement will automatically renew for subsequent additional 90-Day terms unless customers cancel their account within 30 days of completion of the current term.
- C. 6-Month Term Agreement** – In consideration for the value of various promotional offerings granted to certain new customers, such customers may elect to be subject to a 6-Month Term Agreement. Should a customer under this term agreement terminate service with Company prior to completion of the term, that customer is subject to an early termination charge equal to the amount of estimated billing for such customer, applied on a pro-rata basis for the remainder of the term. The monthly estimated billing for a customer is determined by customer's previous carrier's invoice. The initiation date of the term is deemed the date of customer's first call. The date of termination of service is deemed as the date Company's Winback Department notes customer's account as in "jeopardy." The pro-rata early termination charge amount is determined by multiplying customer's monthly estimated billing by six (6) (to determine the total term estimated billing), determining the percentage of the remaining days of the term after termination, as compared to the entire term, and applying the remaining term percentage to the total term estimated billing. Percentages are rounded up to the next whole number, and termination charges are rounded up to the next whole dollar. The early termination charge will be applied to customer's next invoice after the date of termination. Customer's 6-Month Term Agreement will automatically renew for subsequent additional 6-Month terms unless customers cancel their account within 30 days of completion of the current term.

2.19 Service Cancellation, Discontinuance and Termination (Cont'd)

2.18.6 Service Term Commitments (Cont'd)

- D. 1-Year Term Agreement** – In consideration for a guarantee, granted to certain new customers, that a customer's long distance Interstate and Intrastate/IntraLata usage rates will not increase during the Agreement term, such customers may elect to be subject to a 1-Year Term Agreement. Should a customer under this term agreement terminate service with Company prior to completion of the term, that customer is subject to an early termination charge equal to the amount of estimated billing for such customer, applied on a pro-rata basis for the remainder of the term. The monthly estimated billing for a customer is determined by customer's previous carrier's invoice. The initiation date of the term is deemed the date of customer's first call. The date of termination of service is deemed as the date Company's Winback Department notes customer's account as in "jeopardy." The pro-rata early termination charge amount is determined by multiplying customer's monthly estimated billing by twelve (12) (to determine the total term estimated billing), determining the percentage of the remaining days of the term after termination, as compared to the entire term, and applying the remaining term percentage to the total term estimated billing. Percentages are rounded up to the next whole number, and termination charges are rounded up to the next whole dollar. The early termination charge will be applied to customer's next invoice after the date of termination.
- E. Discontinuance Without Liability** - Customers may discontinue service before expiration of any term commitment specified in this tariff without incurring the applicable termination charges if customers restructure their service by agreeing to a new service term of equal or greater length as that of the service term customer discontinues or to a new service with a greater volume commitment for a term, the combination of which (that is, the new term and greater volume commitment) has a value equal to or greater than the value of the service being discontinued.

Commencement of an action or complaint does not relieve Customer's duties to pay Company's charges.
- 2.19.2 All actions at law or in equity, and/or all complaints to regulatory authorities against Company for the recovery of overcharges based on tariffed rates shall be begun within one year from the time the cause of action accrues and not after, except that if a claim for the overcharge has been presented in writing to Company within the one-year period of limitation, said period shall be extended to include one year from the time the notice in writing is given by the Company to the claimant of disallowance of the claim, or any part or parts thereof, specified in such notice. 2.20 Arbitration of Disputes

The Company will in good faith attempt to resolve all disputes raised by Customer to the Company. In addition, the Washington Utilities and Transportation Commission shall have the authority to investigate and resolve complaints made by Customers regarding telecommunication services provided in Washington. The Commission may resolve Customer complaints between the Customer and the Company pursuant to Commission procedures by attempting to work with both parties to come to resolution. All disputes submitted to the Commission by a Customer which are not ultimately resolved through Commission procedure, or disputes which the Customer chooses not to resolve through Commission procedure, shall be resolved through binding arbitration.

Arbitration of disputes, whether raised by the Company or by the Customer, shall resolve all issues between the Company and the Customer, and shall not involve any form of class or collective arbitration nor any form whatsoever of class action lawsuit. A dispute occurs when the customer fails to pay an invoice or contests it for any reason associated with the ordering, installation, provisioning, maintenance, repair, interruption, restoration or termination of any service or facility offered under this Tariff. Once a dispute is raised, arbitration is mandatory, and counterclaims may be asserted. The arbitration shall be administered by the neutral third party administrator (Administrator) jointly chosen by the customer and Company and shall be conducted under rules and procedures normally followed for arbitrations conducted in this country. As a condition of service under this Tariff, and as disclosed in the customer authorization for service (LOA), any dispute or any counterclaims in response to such a dispute shall be governed by such arbitration rules and procedures. Nothing herein shall be construed to deny a customer its rights to file complaints with the Washington Utilities and Transportation Commission pursuant to applicable statutory or regulatory provisions at any time.

3.2.8 Call Unit Calculations

Total charges per call are calculated by using the information provided in Tables 1 or 2 to determine Total Call Units ("TCU's") in each call and by multiplying the TCU's by the rates applicable to the service provided. The following tables may be used to determine the TCU's in any call of a specified duration as shown following:

TABLE 1 - Calls of a Minute or Less

<u>Duration (In seconds)</u>	<u>TCU's</u>
1-18*	2.2
19-22	2.3
23-24	2.4
25-26	2.5
27-29	2.6
30	2.7
31-35	2.9

45-48	3.3
49-53	3.4
54	3.5
55-58	3.6
59	3.7
60	3.8

* calls are subject to an 18-second minimum.

TABLE 2 - Calls in Minutes

<u>Duration (In minutes)</u>	<u>Formula Calculations</u>
1-19.9	TCU's = [Call Duration (in minutes) x 2.2 + 1.6]
20 +	TCU's = [Call Duration (in minutes) + 25.6]

Note: The tables preceding can be used in reverse to convert TCU's to minutes of call duration for individual calls.

3.2.11 Rounding

3.2.11.1 Rounding at 18/6. Company follows the industry practice of "rounding," that is, in its most basic form, when call duration does not end on the nearest whole 6-second increment, the call's duration is rounded to the next whole 6-second increment. Services with billing increments of 6 second increments with an 18-second minimum are billed as follows - a minimum of 3 call units, equal to either 3 ICUs of 6-seconds each, or 1 Minimum Call Unit (MCU) of 18 seconds as the minimum, with additional call duration rounded to the next higher 6-second increment, i.e., the next ICU having a value in this case of a whole 6 seconds.

3.2.11.2 Rounding to Whole Cents. Charges for each call are totaled. If the computed charges include a fraction of a cent, the fraction is rounded up to the next whole cent (e.g., \$1.4233 would be rounded up to \$1.43).

3.3 Calculation of Distance

Usage charges for all mileage sensitive products or services are based on the airline distance between the rate center locations associated with the originating and terminating points of the call. At present, Carrier does not offer mileage sensitive products or services.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the rate centers as defined by AT&T in its Tariff No. 10 as filed with the FCC in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the rate center of the customer's switch and the destination point.

Step 2 - Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating rate centers of the call.

Formula:
$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

3.5 Telecompetitive Service Offerings (“TSOs”)

From time to time, Carrier shall tariff rates or select tariffed rates, the purpose of and/or design for which is to retain Carrier’s competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential customers which, if not matched or bettered, would result in the loss of an existing or potential customer and/or in the reduction of traffic volume of the customer. Carrier either shall require customer confirmation of the competitive offer in writing or shall confirm the availability of a more favorable competitive rate from published tariffs, marketing materials, or other public sources to establish a customer’s right to obtain a TSO.

3.5.1 TSOs will comply with the Carrier’s net revenue test which is founded on established economic principles ensuring above-cost pricing.

3.5.2 A Customer or potential customer which is similarly situated may request service under a new or previously tariffed TSO. To qualify as a similarly situated customer for purposes of this section, the customer seeking the TSO must demonstrate the existence of circumstances substantially and materially like those which justified the TSO as tariffed.

3.5.3 An existing Customer or potential customer unable to demonstrate being similarly situated under a tariffed TSO may, nonetheless, be able to qualify for a different or new TSO tailored to that customer’s circumstances.

3.5 Telecompetitive Service Offerings (“TSOs”) (Cont’d)

3.5.4 TSOs are available for all rates published in this Price List.

3.5.5 Whenever a Customer’s competitive offer entails a rate which is not at the time offered by the Company, a specifically responsive competitive rate (“RCR”) matching that otherwise available from the competitive offering shall be tariffed in Section 4, following.

3.6 Benchmark Rates

Certain rates set forth in Section 4 of this tariff are “benchmarked,” that is, keyed to a Customer’s monthly revenue volume and/or term commitments. 5.7 “One, Two, Three, Every Third Invoice Free” Promotion

New customers who meet the eligibility requirements set forth below, may receive credits under the “One, Two, Three, Every Third Invoice Free” Promotion as follows:

- A. A credit applied to customer’s first, second and third invoices equal to 33% of customer’s long distance call traffic charges, appearing on the same invoice, excluding calling card charges, fees, taxes, surcharges, assessments and similar charges, applied to the same invoice, and
- B. A credit applied to every third invoice, starting with customer’s sixth invoice (6th, 9th, 12th, etc.), equal to an average of the long distance call traffic charges appearing on the two invoices immediately preceding the credit invoice, excluding calling card charges, fees, taxes, surcharges, assessments and similar charges.

This promotion is non-cumulative and can not be carried over to any following month or otherwise accumulated. Should the calculated credit to be applied to the sixth, or subsequent invoices exceed the actual long distance call traffic charges for that credit invoice, then the credit amount is limited to the actual amount of long distance call traffic charges appearing on that credit invoice.

To be eligible for this offering, customers must: have initiated new service; have current usage which exceeds the established minimum monthly usage levels for the applicable service; have less than fifty dollars sixty days past due; have received consecutive and uninterrupted service; and have selected this offering prior to the charges rendered in customer’s credit invoice(s). Additionally, Customers must contact the Company to confirm the promotion selection, after service initiation, to be eligible to receive the sixth and subsequent invoice credits, prior to the sixth and each subsequent invoice credit invoice.

5.10 Customer Advantage Plans ("CAPs")

5.10.1 General Terms and Conditions

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Advantage Plan" or "CAP," the purpose and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential Customers, which if not matched or bettered would result in the loss of an existing or potential Customer and/or in the reduction of traffic volume of a Customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a Customer's right to obtain a CAP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Advantage Plan offerings are available for eligible Customers taking outbound and inbound equal access switched services of Company originated from and terminated to locations within this state whenever Company determines that but for the availability of these rates, Company will not retain an existing Customer ("save") or will not be able to winback a prior Customer already having switched its services to another carrier ("winback"). The following terms and conditions must exist for any CAP to be valid.

- A. CAPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- B. A Customer or potential Customer which is similarly situated may request service under a new or previously tariffed CAP. To qualify as a similarly situated Customer for purposes of this Section, the Customer seeking the CAP must demonstrate the existence of circumstances substantially and materially like those which justified the CAP as tariffed.

- C. Customers are not required to recharge their International Plus Prepaid Calling Service account. SECTION 7- INTERNATIONAL PLUS DESCRIPTION OF SERVICES AND RATES (Cont'd) (Residential)

7.2 Advantage Card Service (ACS)

Advantage Card Service (ACS) is offered to existing and new customers meeting the eligibility requirements set forth in 7.2.1 following. Each ACS Customer who maintains its eligibility is entitled to free calling card calling up to \$20.00 per month commencing with Customer's first invoice if the ACS Customer incurs ACS charges in the service period covered by the first invoice, otherwise in the second invoice, and in either event the credit applies through and ending with Customer's seventh invoice ("Fixed Advantage Calling"). An additional allowance of free calling card calling is provided equal to 50% of the average monthly charges incurred for the ACS Customer's non-calling card calling billed in the Customer's 2nd through 7th invoices following Customer commencement of service as an ACS Customer ("Bonus Advantage Calling").

7.2.1 Eligibility

Company's Advantage Card Service (ACS) becomes available once an International Plus Customer has completed a minimum of 30 consecutive days of "on-line" services offered by Company (that is, any stand-alone or combination of interexchange, toll free, local, Internet access or Internet site services), whose account is current (no delinquencies in payment occurring or having occurred) and whose billing cycle has remained consistently consecutive (without interruption for any cause).

7.2.2 Limitations and Disclaimers - General

- A.** ACS is offered only in conjunction with Company's interstate and international companion ACS offerings as tariffed with the FCC.
- B.** If earned as specified in 7.2 preceding, Fixed Advantage Calling will be reflected in Customer's first or second through seventh invoices following commencement of ACS service and the ACS Bonus Advantage Calling will be reflected in Customer's eighth invoice following commencement of ACS service.
- C.** ACS Calling Advantages are not available with any other promotional offering or "save/winback" program offered by Company except as provided in E following.
- D.** Each month's ACS Fixed Advantage Calling is noncumulative (cannot be carried over to any following month or otherwise accumulated).

SECTION 7- INTERNATIONAL PLUS DESCRIPTION OF SERVICES AND RATES (Cont'd) (Residential)

7.2 Advantage Card Service (ACS)

7.2.2 Limitations and Disclaimers - General (Cont'd)

E. Subject to and in accordance with the provisions of Sections 7.4 and 7.4.6 following, and the eligibility requirements of 7.2.1 preceding, ACS service may be offered to counter a competitive offer that would cause or has caused any Customer to select another carrier for its services, that is, ACS service may be offered to “save” or “winback” such Customers; provided that at the time Customer is “saved” or “wonback,” Customer is neither delinquent in any payments nor suffered an interruption in its billing cycle as required by 7.2.1 preceding.

F. An ACS Customer must complete a minimum service term of seven (7) invoices with no delinquencies and no bill cycle interruptions in order for its eighth invoice to reflect the applicable Bonus Advantage Calling.

G. An ACS Customer whose service is terminated for cause or which voluntarily terminate Company’s service prior to the completion of the minimum seven month service term for Bonus Advantage Calling forfeits all unused credits.

7.2.3 Limitations and Disclaimers - Shortfalls

An ACS Customer must maintain a monthly minimum of \$20.00 in non-calling card charges to avoid shortfall charges. Customer shall be billed the difference between actual charges incurred and the monthly minimum charge of \$20.00, the “shortfall charge.” For example, if a Customer’s actual charges for non-calling card calls are \$12.34, a shortfall charge of \$7.66 will appear on the invoice. In addition, the Customer’s rates are adjusted for the month in which the shortfall occurs to the rates in 7.3.5 following for all non-calling card and calling card usage. While shortfall charges apply to the non-calling card charges of an ACS Customer, the application of the shortfall provisions will not reduce the Fixed Advantage earned for calling card calls and the Customer will be credited with any calling card usage in excess of the total Fixed Advantage available if earned. Compare using the following examples.

7.2.3 Limitations and Disclaimers - Shortfalls (Cont'd)

Example 1: An ACS Customer is billed \$12 for 1+ calling in the month of May and makes \$18 worth of calling cards in the same month. The Customer will receive full credit in its June invoice for the \$18 of calling card calls, be assessed a shortfall of \$8 pursuant to the provisions of this Section 7.2.3, and its rates will be rerated under Section 7.3.5 following.

Example 2: An ACS Customer is billed \$7 for 1+ calling in the month of October and makes \$26 worth of calling cards in the same month. The Customer will receive full credit (\$20) in its November invoice for the \$26 of calling card calls and, will be credited with \$6 in excess of the calling card usage so that the shortfall assessed pursuant to the provisions of this Section 7.2.3 will be reduced to \$7 (\$20 minimum in 1+ usage per this Section 7.2.3 - \$7 used = \$13 shortfall - \$6 in excess calling card usage = \$7 shortfall under this 7.2.3), and its rates rerated under 7.3.5 following.

Example 3: An ACS Customer is billed \$9 for 1+ calling in the month of February and makes \$44 worth of calling cards in the same month. The Customer will receive full credit (\$20) in its March invoice for the \$44 of calling card calls and will not be assessed any shortfall under the provisions of this Section 7.2.3 nor be subject to rerating under 7.3.5 following (because the \$9 in 1 + calling and the \$24 in calling card calling is in excess of the \$20 minimum required by this Section 7.2.3 equals \$33 in qualified billings for the month of February).

7.4 Customer Loyalty Plans

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Loyalty Plan" or "CLP," the purpose and/or design for which is to retain the competitive position of International Plus by offering rates which are necessitated by competing offers received by or available to existing or potential Customers, which if not matched or bettered would result in the loss of an existing or potential Customer and/or in the reduction of traffic volume of a Customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a Customer's right to obtain a CLP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Loyalty Plan offerings featuring the specified rates for each Plan are available for eligible Customers taking outbound and inbound equal access switched services of International Plus originated from and terminated to locations within this state whenever International Plus determines that but for the availability of these rates, International Plus will not retain an existing Customer ("save") or will not be able to win back a prior Customer already having switched its services to another carrier ("winback").

The following terms and conditions must exist for any CLP to be valid.

- 7.4.1** CLPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- 7.4.2** A Customer or potential Customer which is similarly situated may request service under a new or previously tariffed CLP. To qualify as a similarly situated Customer for purposes of this Section, the Customer seeking the CLP must demonstrate the existence of circumstances substantially and materially like those which justified the CLP as tariffed.
- 7.4.3** An existing Customer or potential Customer unable to demonstrate being similarly situated under a tariffed CLP may, nonetheless, be able to qualify for a different or new CLP tailored to that Customer's circumstances.
- 7.4.4** CLPs are available for all published rates.
- 7.4.5** Whenever a Customer's competitive offer entails a rate which is not at the time an offered rate by International Plus a specific rate competitively responsive to that available from the competitive offering shall be tariffed in this Section 7.4.

7.13 International Plus Service Customer Loyalty Plans

7.13.1 General Terms and Conditions

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Loyalty Plan" or "CLP," the purpose and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential customers, which if not matched or bettered would result in the loss of an existing or potential customer and/or in the reduction of traffic volume of a customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a customer's right to obtain a CLP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Loyalty Plan offerings are available for eligible customers taking outbound and inbound equal access switched services of Company originated from and terminated to locations within this state whenever Company determines that but for the availability of these rates, Company will not retain an existing customer ("save") or will not be able to winback a prior customer already having switched its services to another carrier ("winback"). The following terms and conditions must exist for any CLP to be valid.

- A.** CLPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- B.** A customer or potential customer which is similarly situated may request service under a new or previously tariffed CLP. To qualify as a similarly situated customer for purposes of this Section, the customer seeking the CLP must demonstrate the existence of circumstances substantially and materially like those which justified the CLP as tariffed.

- C. Non-billable calls will not incur any surcharges, taxes or fees.

8.1.5.3 Recharging Feature

- A. The Customer has the option to recharge the available balance on the VIP Prepaid Calling Service account. If an account is recharged, the remaining balance shall be decremented at the rate applicable to the Customer.
- B. To recharge the account, the Customer shall call the designated toll-free number and, in response to the automated voice prompts, provide their account information for a major credit card accepted by the Company and the WTN they want to utilize.
- C. Customers are not required to recharge their VIP Prepaid Calling Service account. When the customer's balance is depleted, customer's credit card will be recharged unless the customer has elected to disable the auto recharge function or the charge against the customer's credit card is unsuccessful. The automatic recharge feature is the default setting for all VIP pre-paid accounts. Customers may choose to disable default features at anytime following the first 60 days of service. Customers electing to disable the auto recharge function should contact customer service or access the calling platform and respond to the appropriate voice prompts. 8.1.5.4 Credit Allowance for Interruptions:

- A. Customers who experience call interruption due to poor transmission, one-way transmission, or involuntary disconnection of the call may obtain a credit allowance. The credit allowance will be equal to the dollar value or minute equivalent for the duration of the call that is interrupted.
- B. In order to receive a credit allowance, the Customer must notify the Company at the designated Customer Service number within 30 days from the date of the interruption. The Customer must also furnish the called number, description of the trouble experienced, approximate time the call was placed, and the duration of the interruption.
- C. Credit allowances are not issued for interruptions that are due to the failure of power, equipment or systems not provided by the Company or interruptions that are not properly reported to the company.

8.4 Customer Loyalty Plans

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Loyalty Plan" or "CLP," the purpose and/or design for which is to retain the competitive position of 011 Communications by offering rates which are necessitated by competing offers received by or available to existing or potential Customers, which if not matched or bettered would result in the loss of an existing or potential Customer and/or in the reduction of traffic volume of a Customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a Customer's right to obtain a CLP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Loyalty Plan offerings featuring the specified rates for each Plan are available for eligible Customers taking outbound and inbound equal access switched services of 011 Communications originated from and terminated to locations within this state whenever 011 Communications determines that but for the availability of these rates, 011 Communications will not retain an existing Customer ("save") or will not be able to winback a prior Customer already having switched its services to another carrier ("winback").

The following terms and conditions must exist for any CLP to be valid.

- 8.4.1** CLPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- 8.4.2** A Customer or potential Customer which is similarly situated may request service under a new or previously tariffed CLP. To qualify as a similarly situated Customer for purposes of this Section, the Customer seeking the CLP must demonstrate the existence of circumstances substantially and materially like those which justified the CLP as tariffed.
- 8.4.3** An existing Customer or potential Customer unable to demonstrate being similarly situated under a tariffed CLP may, nonetheless, be able to qualify for a different or new CLP tailored to that Customer's circumstances.
- 8.4.4** CLPs are available for all published rates.
- 8.4.5** Whenever a Customer's competitive offer entails a rate which is not at the time an offered rate by 011 Communications, a specific rate competitively responsive to that available from the competitive offering shall be tariffed in this section 8.4.

Each ACS Customer who maintains its eligibility is entitled to free calling card calling up to \$20.00 per month commencing with Customer's first invoice if the ACS Customer incurs ACS charges in the service period covered by the first invoice, otherwise in the second invoice, and in either event the credit applies through and ending with Customer's seventh invoice ("Fixed Advantage Calling"). An additional allowance of free calling card calling is provided equal to 50% of the average monthly charges incurred for the ACS Customer's non-calling card calling billed in the Customer's 2nd through 7th invoices following Customer commencement of service as an ACS Customer ("Bonus Advantage Calling").

8.5.1 Eligibility

Company's Advantage Card Service (ACS) becomes available once an 011 Communications Customer has completed a minimum of 30 consecutive days of "on-line" services offered by Company (that is, any stand-alone or combination of interexchange, toll free, local, Internet access or Internet site services), whose account is current (no delinquencies in payment occurring or having occurred) and whose billing cycle has remained consistently consecutive (without interruption for any cause).

8.5.2 Limitations and Disclaimers - General

A. ACS is offered only in conjunction with Company's interstate and international companion ACS offerings as tariffed with the FCC.

8.5.2 Limitations and Disclaimers - General (Cont'd)

E. Subject to and in accordance with the provisions of Sections 8.4 and 8.4.6 preceding, and the eligibility requirements of 8.5.1 preceding, ACS service may be offered to counter a competitive offer that would cause or has caused any Customer to select another carrier for its services, that is, ACS service may be offered to “save” or “winback” such Customers; provided that at the time Customer is “saved” or “wonback,” Customer is neither delinquent in any payments nor suffered an interruption in its billing cycle as required by 8.5.1 preceding.

F. An ACS Customer must complete a minimum service term of seven (7) invoices with no delinquencies and no bill cycle interruptions in order for its eighth invoice to reflect the applicable Bonus Advantage Calling.

G. An ACS Customer whose service is terminated for cause or which voluntarily terminates Company’s service prior to the completion of its minimum service term forfeits all unused credits.

8.5.3 Limitations and Disclaimers - Shortfalls

The provisions of Section 8.3.8 preceding apply to the non-calling card charges of an ACS Customer, however, the application of the shortfall provisions of Section 8.3.8 will not reduce the Fixed Advantage earned for calling card calls and the Customer will be credited with any calling card usage in excess of the total Fixed Advantage available if earned.

11.3.1 “One, Two, Three, Every Third Invoice Free” Promotion

New customers who meet the eligibility requirements set forth below, may receive credits under the “One, Two, Three, Every Third Invoice Free” Promotion as follows:

- A. A credit applied to customer’s first, second and third invoices equal to 33% of customer’s long distance call traffic charges, appearing on the same invoice, excluding calling card charges, fees, taxes, surcharges, assessments and similar charges, applied to the same invoice, and
- B. A credit applied to every third invoice, starting with customer’s sixth invoice (6th, 9th, 12th, etc.), equal to an average of the long distance call traffic charges appearing on the two invoices immediately preceding the credit invoice, excluding calling card charges, fees, taxes, surcharges, assessments and similar charges.

This promotion is non-cumulative and can not be carried over to any following month or otherwise accumulated. Should the calculated credit to be applied to the sixth, or subsequent invoices exceed the actual long distance call traffic charges for that credit invoice, then the credit amount is limited to the actual amount of long distance call traffic charges appearing on that credit invoice.

Eligibility. To be eligible for this offering, customers must: have initiated new service; have current usage which exceeds the established minimum monthly usage levels for the applicable service; have less than fifty dollars sixty days past due; have received consecutive and uninterrupted service; and have selected this offering prior to the charges rendered in customer’s credit invoice(s). Additionally, Customers must contact the Company to confirm the promotion selection, after service initiation, to be eligible to receive the sixth and subsequent invoice credits, prior to the sixth and each subsequent invoice credit invoice.

11.7 INETBA Service Customer Loyalty Plans

11.7.1 General Terms and Conditions

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Loyalty Plan" or "CLP," the purpose and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential Customers, which if not matched or bettered would result in the loss of an existing or potential Customer and/or in the reduction of traffic volume of a Customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a Customer's right to obtain a CLP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Loyalty Plan offerings are available for eligible Customers taking outbound and inbound equal access switched services of Company originated from and terminated to locations within this state whenever Company determines that but for the availability of these rates, Company will not retain an existing Customer ("save") or will not be able to winback a prior Customer already having switched its services to another carrier ("winback"). The following terms and conditions must exist for any CLP to be valid.

- A.** CLPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- B.** A Customer or potential Customer which is similarly situated may request service under a new or previously tariffed CLP. To qualify as a similarly situated Customer for purposes of this Section, the Customer seeking the CLP must demonstrate the existence of circumstances substantially and materially like those which justified the CLP as tariffed.

DESCRIPTION AND RATES (Cont'd)

11.9 Customer Advantage Plans ("CAPs")

11.9.1 General Terms and Conditions

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Advantage Plan" or "CAP," the purpose and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential Customers, which if not matched or bettered would result in the loss of an existing or potential Customer and/or in the reduction of traffic volume of a Customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a Customer's right to obtain a CAP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Advantage Plan offerings are available for eligible Customers taking outbound and inbound equal access switched services of Company originated from and terminated to locations within this state whenever Company determines that but for the availability of these rates, Company will not retain an existing Customer ("save") or will not be able to winback a prior Customer already having switched its services to another carrier ("winback"). The following terms and conditions must exist for any CAP to be valid.

- A. CAPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- B. A Customer or potential Customer which is similarly situated may request service under a new or previously tariffed CAP. To qualify as a similarly situated Customer for purposes of this Section, the Customer seeking the CAP must demonstrate the existence of circumstances substantially and materially like those which justified the CAP as tariffed.

13.4 iVANTAGE NETWORK SOLUTIONS Service Customer Advantage Plans ("CAPs")

13.4.1 General Terms and Conditions

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Advantage Plan" or "CAP," the purpose and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential Customers, which if not matched or bettered would result in the loss of an existing or potential Customer and/or in the reduction of traffic volume of a Customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a Customer's right to obtain a CAP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Advantage Plan offerings are available for eligible Customers taking outbound and inbound equal access switched services of Company originated from and terminated to locations within this state whenever Company determines that but for the availability of these rates, Company will not retain an existing Customer ("save") or will not be able to winback a prior Customer already having switched its services to another carrier ("winback"). The following terms and conditions must exist for any CAP to be valid.

- A. CAPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- B. A Customer or potential Customer which is similarly situated may request service under a new or previously tariffed CAP. To qualify as a similarly situated Customer for purposes of this Section, the Customer seeking the CAP must demonstrate the existence of circumstances substantially and materially like those which justified the CAP as tariffed.

Company shall apply the lowest rate necessary to meet the competitive offering being made to or having been provided to Customer by a carrier competing with Company.
